Psychological Abstracts...

- reports advances appearing in journals and books that may not be read on a regular basis
- enables users to pick up main ideas at a glance by highlighting the key points in a given document
- saves research time by virtue of PA complete bibliographic data for all citations
- and lets users find what they need in a hurry with its reader-friendly indexes for each month and year

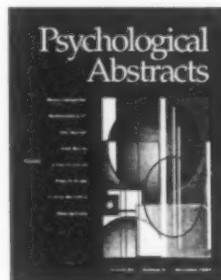

* This book-related material previously appeared separately in *PsycBOOKS*.

** Summaries in PA will continue to be grouped by subject classification, as well as now by source: SERIAL, BOOKS, and CHAPTERS. We've retained the style which PA subscribers find most efficient, and integrated the strengths of the former version of *PsycBOOKS*.

Now a single print product gives users access to chapter, book, and journal information from all areas of psychology and related disciplines. APA's *Psychological Abstracts (PA)* brings users nearly 3,000 journal abstracts every month and NOW includes book chapter and book information.* Both psychologists and librarians have reported that they want the convenience of having a single source for ALL of the information available from books, book chapters, and journals. That's why chapter and book summaries are included in the monthly issues of PA.**

PA gives your users an overview of research in psychology and related fields, sums up articles from over 1,200 English-language journals and over 1,200 books annually, shows everything that's new in a given specialty, and much more!

Don't miss out on psychology's richest resource on current literature! PA is priced at \$999 per year for institutions. Well worth it for over 3,200 journal and book abstracts per month!

PSYCINFO
INFORMATION SERVICES IN PSYCHOLOGY

PA

PsycINFO, a family of interrelated information services, provides access to the literature in psychology and interrelated behavioral and social sciences in a variety of ways. *PsycINFO* consists of:

Psychological Abstracts (PA) journal (ISSN 0033-2887). The comprehensive monthly compilation of nonevaluative summaries of the serial and book literature in psychology and related disciplines.

Issue. The monthly PA issues contain entries listed under 22 major classification categories, with some categories having subsections, as shown in the Table of Contents. Under each classification heading, the records are arranged alphabetically by first author, and are numbered consecutively each year. The volume contains approximately 40,000 records.

Indexes. An author, brief subject, and book title index appear in each monthly issue. An expanded and integrated annual index is published at the end of each volume.

PsycSCAN®: Clinical Psychology, Developmental Psychology and Applied Psychology. Quarterly publications containing abstracts from subscriber-selected journals in the areas of clinical psychology, developmental psychology, and applied psychology, respectively.

PsycSCAN: LD/MR. A quarterly publication containing abstracts on learning disabilities, communication disorders, and mental retardation.

Neuropsychology Abstracts. Formerly known as PsycSCAN: Neuropsychology. A quarterly publication covering the clinical and human cognitive experimental areas of neuropsychology.

Psychoanalytic Abstracts. Formerly PsycSCAN: Psychoanalysis. Quarterly publication containing abstracts in the area of psychoanalysis.

PsycSCAN: Behavior Analysis & Therapy. Drawn from the total coverage of *PsycINFO*®, this quarterly publication contains abstracts in the area of behavior analysis and therapy.

The Thesaurus of Psychological Index Terms® 1997. A compilation of the vocabulary used in psychology and related disciplines as generated from the files of PA.

PsycINFO User Manual® 1992. Developed for the individual researcher of the information available from PsycINFO services, whether through use of the printed PA issues and indexes or by computer-assisted search of the database.

PASAR® (PA Search and Retrieval). Retrospective search and retrieval services available through the PsycINFO office.

PsycINFO® Database. Magnetic tapes of PsycINFO records to institutions for annual lease or license. Designed for use by information analysts and dissemination centers, the PsycINFO database is also used for direct interaction by individuals through a computer terminal in their own facilities. This service is available through several dissemination centers throughout the world.

PsycLIT®. A CD-ROM product containing PsycINFO citations and abstracts published from 1974 to present. PsycLIT includes summaries and citations from over 1,300 journals from 45 countries. English-language books and chapters from 1987 are included. Updated quarterly.

For more information on the above products, uses, and costs write to PsycINFO, American Psychological Association, 750 First Street, NE, Washington, DC 20002-4242; or visit the American Psychological Association web site at www.apa.org.

Psychological Abstracts is printed on acid-free paper.

Examples are number coded to provide definition of their elements.

COVERAGE LIST

1. Journal title. Bold type identifies those journals that published articles appearing in this volume year.
2. Publication year of first issue scanned. Asterisks within parentheses indicate that coverage by *Psychological Abstracts* began with the first issue of the publication.
3. Journal ISSN.
4. Journal frequency. The number of issues published per year. "IR" indicates that an irregular number of issues are published.
5. Publisher name.
6. Publisher address.

AUTHOR INDEX

1. Author. The Author Index is intended to be a name only and not a person index. "Adams, P." will be listed separately from "Adams, Paul" even though the name may refer to the same person; however, two listings for "Adams, P." may refer to two different authors.
2. Abstract referenced.

Language abbreviations used after translated titles are:

Afri = Afrikaans
 Alba = Albanian
 Arb = Arabic
 Bulg = Bulgarian

1999 COVERAGE LIST

The PsycINFO Coverage List includes journals and other serial publications that are scanned regularly, abstracted selectively, and included in *Psychological Abstracts* (PA), PsycLIT, ClinPSYC, and the PsycINFO database. In cases where a journal publishes articles only in a language other than English, the abstracts for these journal articles will be included in PsycLIT, ClinPSYC, and PsycINFO database, but will not appear in *Psychological Abstracts*. A dagger (†) after the title indicates this occurrence. For journals that publish articles both in English and in other languages, only the abstracts of the English language articles will be included in PA while both English and non-English language articles will appear in PsycLIT, ClinPSYC, and the PsycINFO database.

The presence of a serial title in the list does not imply that all articles contained in issues of that serial will subsequently appear in PsycINFO's databases or print products. Journals likely to publish articles relevant to behavior are included for regular systematic scan of their content. Articles are selected specifically and individually for their relevance to psychology.

Whenever possible, publisher name, address, frequency of publication, and ISSN are included for each publication to facilitate access to original documents by users. The date in parenthesis indicates the publication year of the first issue scanned by PsycINFO of a particular serial. Asterisks within parenthesis indicate that coverage began with the first issue of publication. An N/A after an ISSN indicates that the number was not available. Bold type identifies those journals that published articles appearing in this volume year.

This Annual Author Index contains over 100,000 references to the authors and editors of approximately 40,000 abstract records published in the 12 monthly issues of *Psychological Abstracts* from January 1999 through December 1999. A companion work, the Annual Subject Index, references these records by topic.

In this volume, all the authors and editors whose work was abstracted or cited in *Psychological Abstracts* for the periods indicated are listed alphabetically by surname. However, the Author Index is intended to be a name index only and not a person index. "Adams, P." will be listed separately from Adams, Paul, even though the names may refer to the same person. Two listings for "Adams, P." may also refer to two different authors. Entries consist of author name(s), and the *Psychological Abstracts* abstract number under which the entry appeared.

Which side are you on, anyway?

Well, okay. We know it's not *that* simple. Current research in neuropsychology yields an understanding of left-brain/right-brain dominance that is more complex and subtle, compared to earlier investigations or popular conceptions. But one thing hasn't changed. The place to find the latest research on this topic is the PsycINFO® family of information products from the American Psychological Association, whether you prefer online services, the Web, CD-ROM, or

print. And that also goes for the thousands of other subjects covered in APA's PsycINFO, PsycLIT®, and ClinPSYC® databases and the print *Psychological Abstracts*®, including psychological aspects of such diverse fields as artificial intelligence, health care, management, advertising, education, criminal justice, arts and humanities, and many others. So give *both* sides of your brain the psychological information they need. Trust PsycINFO products for your research.

Leaving the myths of popular culture behind, this highly readable book presents an exhaustive summary of what research tells us about early memories. The author discusses what is known about memory survival and retrieval and discusses in detail the formation of false memories and erroneous memories. The author concludes that the scientific evidence on memory development points toward a single-memory system, that is, a memory system that works the same way in early life as it does in later childhood and in adulthood.

Throughout, the author details how memory works. For instance, evidence shows that all memories, whether conscious or unconscious, declarative or nondeclarative, work along the same principles and that what is best retained in memory is the meaning of experiences that are distinctive and personally consequential. An essential resource for researchers, practitioners, clinicians, and legal professionals interested in children's memories. 2000. 240 pages. Hardcover.

Talents Unfolding:

COGNITION AND DEVELOPMENT

*Edited by Reva C. Friedman
and Bruce M. Shore*

AMERICAN
PSYCHOLOGICAL
ASSOCIATION

Talents Unfolding sheds new light on the developmental aspects of giftedness and exceptional performance — insights that inform the encouragement of talents in so-called “normal” individuals as well. This book provides a refreshing look at ability that extends the debate about giftedness far beyond the contours of IQ and into the realm of multiple intelligences and their environmental context. Contributors examine the nature of creativity and domain-specific expertise (e.g., social giftedness, visual arts) to determine how talent can be nurtured, educated, and developed. A must read for developmental, social, school, and educational psychologists. 2000. About 336 pages. Hardcover.
